1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 30-32 and 34-38 are finally rejected under 35 U.S.C. 103(a) as being unpatentable over Bassett et al., Hanson or Lazzara et al. Each reference discloses most of the elements of the claims, as already noted, but may not disclose elements such as the perforatable film covering the opening, as recited in claim 30. However these missing features, such as the perforatable film, are conventional (For example only, note applicant's own argument with reference to the Lazzara patent. While applicant indicates that the film of Lazzara is not disclosed in the reference as being perforatable, the film is considered to be inherently perforatable by the examiner. Films of the type under consideration can always be perforated at the option of a user of the package, for example, given a sharp enough instrument. Thus the films are "perforatable" as claimed, whether or not the reference expressly teaches the same). It would have been obvious to provide any of the prior art tubes with a perforatable film closure, either instead of or in addition to the closures disclosed in the references, for the purpose of providing better sealing of the package contents.

3. Applicant's arguments filed 10/16/08 have been fully considered but they are not persuasive. Note the comments above. The use of perforatable films as compartment closures is conventional.
4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
